Mounting systems for solar technology

Everest Solar Systems

Everest Solar Systems is dedicated to advancing solar energy installations throughout the Americas by offering cutting edge mounting systems for solar technology. The company is a member of K2 Systems International Group, which continues to improve its broad portfolio of industry-leading technologies and mounting solutions for residential, commercial, and utility scale solar deployments.

The mission of Everest Solar Systems, following K2's success in Europe, is to offer innovative mounting solutions to our customers backed by world class quality, engineering and customer support. Based in Oceanside, California, the company will support the America's long term market development with a broad set of capabilities including local product development, sales, applications, project services, manufacturing and sourcing operations.

D DOME RAILLESS

East/West System

Simple • Versatile • Fast • Durable

INNOVATION – QUALITY – DURABILITY – SERVICE – SUPPORT

Pre-Built Assemblies Delivered to Your Site:

UL 2703 Bonding Mid Clamp

UL 2703 Bonding End Clamp

Flat Roof Ballasted or Attached
→ High GCR / Energy Density
→ Wind Tunnel Tested with SEAOC peer-reviewed results

Mounting systems for solar technology

CrossRail for Pitched Roofs:

- High quality, German engineering
- UL 2703 Listed for bonding and fire
- Fast, simple installation
 - No drilling, no bonding jumpers
 - Pre-assembled clamps with integrated bonding
 - Robust bonding rail splices
 - Low part count
- Also compatible with tile roofs using commonly-available roof hooks

CrossRail 48/48-S/80

Material: aluminum
 Finish: mill, dark anodized
 Standard length: 164"/166"/164", custom

Burdy WEEB Lug 8.0 + Hardware

Weeb Lug 8.0 Material: tin plated copper
 Hardware: stainless steel

Rail Connector Set¹

Material: aluminum
 Finish: mill, dark anodized
 Hardware: stainless steel

L-Foot w / Hardware²

Material: aluminum
 Finish: mill, dark anodized
 Hardware: stainless steel

Bonding Mid Clamp Set¹

Material: stainless steel
 Finish: silver, dark

EverFlash

Material: aluminum
 Finish: mill, dark

Bonding End Clamp Sets¹

Material: stainless steel or aluminum
 Finish: silver, dark

TileHook 3S

Material: aluminum
 Finish: mill

End Cap for CrossRail

Material: high strength nylon (PA66)

Optional: Micro Inverter and Optimizer Mounting Kit^{1,3}

Material: stainless steel

¹ Dark anodized rail must use Bonding T-Bolt and Bonding MK3 hardware.

² Use standard L-Foot with 3rd party roof attachments and EverFlash L-Foot with EverFlash Comp Flashing.

³ The inverter hardware kit is not intended to replace the micro inverter ground and has only been evaluated to attach to the rail.

CROSSRAIL FOR PITCHED ROOFS

For more information contact: sales@everest-solarsystems.com | Phone: 760-301-5300

Mounting systems for solar technology

Shared Rail for Pitched Roofs:

- UL 2703 Listed for bonding and fire
- Fast, simple installation
 - No drilling, no bonding jumpers
 - Pre-assembled clamps with integrated bonding
 - Robust bonding rail splices
 - Low part count
- Also compatible with tile roofs using commonly-available roof hooks

CrossRail 48/48-S/80

Material: aluminum
 Finish: mill, dark anodized
 Standard length: 164"/166"/164", custom

Burdny WEEB Lug 8.0 + Hardware

Webb Lug 8.0 Material: tin plated copper
 Hardware: stainless steel

Rail Connector Set

Material: aluminum
 Finish: mill, dark anodized
 Hardware: stainless steel

L-Foot w / Hardware

Material: aluminum
 Finish: mill, dark anodized
 Hardware: stainless steel

Bonding Mid Clamp Set

Material: stainless steel
 Finish: silver, dark

Optional: Micro Inverter and Optimizer Mounting Kit

Material: stainless steel

Bonding End Clamp Sets

Material: stainless steel or aluminum
 Finish: silver, dark

Optional: Array Skirt w/ Hardware

Material: aluminum
 Finish: dark anodized
 Hardware: stainless steel

Shared Rail Add-On

Material: glass fibre reinforced polyimide
 Finish: black

Mounting systems for solar technology

CrossRail Tilt Kit for Steep Slope and Low Slope Roofs:

- High quality, German engineering
- UL 2703 Listed for bonding
- Fast, simple installation
 - No drilling, no bonding jumpers
 - Pre-assembled clamps with integrated bonding
 - Pre-engineered for 7, 10, and 15 degree tilt angles

CrossRail 48 & CrossRail 80

Material: aluminum
 Finish: mill, dark anodized
 Standard length: 164", custom

Burdny WEEB Lug 8.0 + Hardware

Webb Lug 8.0 Material: tin plated copper
 Hardware: stainless steel

Rail Connector Set CrossRail 48 & 80¹

Material: aluminum
 Finish: mill, dark anodized
 Hardware: stainless steel

L-Foot w / Hardware⁴

Material: aluminum
 Finish: mill, dark anodized
 Hardware: stainless steel

Bonding Mid Clamp Set¹

Material: stainless steel
 Finish: silver, dark

CrossRail Tilt Up Bracket Kit¹

Material: aluminum
 Finish: mill, dark anodized
 Hardware: stainless steel

Bonding End Clamp Sets¹

Material: stainless steel or aluminum
 Finish: silver, dark

Climber Set^{1,2}

Material: aluminum
 Finish: mill
 Hardware: stainless steel

Optional: Micro Inverter and Optimizer Mounting Kit^{1,3}

Material: stainless steel

¹ Dark anodized rail must use Bonding T-Bolt and Bonding MK3 hardware.

² Slotted version may only be used on arrays with a tilt angle less than 45 degrees, relative to ground.

³ The inverter hardware kit is not intended to replace the micro inverter ground and has only been evaluated to attach to the rail.

⁴ Use standard L-Foot with 3rd party roof attachments and EverFlash L-Foot with EverFlash Comp Flashing.

CROSSRAIL FOR TILT UP SYSTEMS

Mounting systems for solar technology

CrossRail for Ground Mount:

- Pre-engineered System:
 - 4 rows in landscape
 - 20-35° tilt
 - 0-50 lbs Snow, 100 -130 mph Wind
- Uses the Everest CrossRail 80 & L-Bracket kit on standard 1.5 - 2.0" pipe & Hollaender connectors
- Low cost system with easy installation

CrossRail 80

Material: aluminum
Standard length: 164" or custom

Bonding Mid Clamp Set

Material: stainless steel
Finish: silver, dark

Bonding End Clamp Sets

Material: stainless steel or aluminum
Finish: silver, dark

Everest Universal L-Bracket Kit w/Hardware

Material: galvanized steel
T-bolt material: stainless steel

Burndy WEEB Lug 8.0 + Hardware

Material: aluminum
Hardware: stainless steel

End Cap for CrossRail 80

Material: high strength nylon (PA66)

Schedule 40/80 Galv. Pipe

Material: galvanized steel

Hollaender No. 70 External Coupling

Material: aluminum

Hollaender 5 EXT Extended Barrel Tee

OR

Hollaender 5 EX

Material: aluminum

Hollaender 17E Adj. Elbow OR

Tee-E Assembly +

Hollaender 17 Adj. Elbow or Tee Assembly

Material: aluminum

HEYClip SunRunner Cable Clip SS, S6404

Material: stainless steel

Mounting systems for solar technology

XPressRail for Trapezoidal Metal Roofs:

- High quality, German engineering
- UL 2703 Listed for bonding
- Fast, simple installation
 - No drilling, no bonding jumpers
 - Pre-assembled clamps with integrated bonding
 - Robust bonding rail splices
 - Low part count

XPressRail 22

Material: aluminum

XPressLock Set

Material: aluminium
Hardware: stainless steel

XPressClip¹

Material: glass fibre reinforced polyamid, EPDM

WEEB Lug 6.7

Material: aluminum

Bonding Mid Clamp Set

Material: stainless steel
Finish: silver, dark

Optional: Micro Inverter and Optimizer Mounting Kit

Material: stainless steel

Bonding End Clamp Sets

Material: stainless steel or aluminum
Finish: silver, dark

Self-Tapping Screw 6 x 36

Material: Stainless steel, jointing: EPDM, wrench size: 8 mm

Alternative: Self-tapping moulded screw 6 x 38
Material: Stainless Steel, EPDM, SW 8

¹ Minimum flat area required for mounting XPressClip: 0.9"

Mounting systems for solar technology

D Dome for Flat Roofs:

- Maximize energy / panels per roof with double sided E/W orientation - no inter row spacing required
- Wind tunnel tested resulting in low ballast & flexible load sharing (SEAC PV1 & PV2 Compliant)
- UL 2703 Listed for bonding and fire
- Roof Protection Mat and Spacer Pads to interface with common roof types and manage roof undulations
- Low material cost / easy installation

Dome D1000

Width: 3.54 inch (90 mm)
Material: aluminum

Dome SD

Width: 3.54 inch (90 mm)
Material: aluminum

XPressRail 22

Material: aluminum

Bonding Mid Clamp Set

Material: stainless steel
Hardware: stainless steel

Bonding End Clamp Sets

Material: stainless steel or aluminum
Hardware: stainless steel

EZ Universal Hardware Set

Material: stainless steel

IlSCO Lug SGB-4

Material: tin plated aluminum
Hardware: stainless steel

Building Protection Mat II Building Protection Mat SD Building Protection Mat Spacer Pad

Material: recycled tire rubber

Porter for Ballasting

L-Bracket for ballast
Material: aluminum

Optional: Eco Fasten Eco65

Material: stainless steel

Optional: OMG PowerGrip Plus

Allows welding to the roof membrane

Optional: XPressRail Connector Set

Material: aluminum

Mounting systems for solar technology

D Dome Railless for Flat Roofs:

- New innovative double-sided low ballast system suitable for all orientations
- Shares the key advantages of the D Dome System
- Pre-built assemblies delivered to the site enable simple, fast installation
- Aerodynamic optimization enables minimal ballast; wind tunnel tested by leading structural aerodynamics labs
- Low material cost / easy installation

Dome RL D1000 28" Length Kit

Material: aluminum, recycled rubber
Hardware: stainless steel

EZ Universal Hardware Set

Material: stainless steel

Dome RL Double-SD 16" Length Kit

Material: aluminum, recycled rubber
Hardware: stainless steel

IlSCO Lug SGB-4

Material: tin plated aluminum
Hardware: stainless steel

Dome RL Single-SD 10" Length Kit

Material: aluminum, recycled rubber
Hardware: stainless steel

Optional: Porter for Ballasting

L-Bracket for ballast
Material: aluminum

Railless Connector Set

Material: aluminum
Hardware: stainless steel

Optional: Eco Fasten Eco65

Material: stainless steel

Bonding Mid Clamp Set

Material: stainless steel
Hardware: stainless steel

Optional: OMG PowerGrip Plus

Allows welding to the roof membrane

Bonding End Clamp Sets

Material: stainless steel or aluminum
Hardware: stainless steel

D DOME RAILLESS FOR FLAT ROOFS

Mounting systems for solar technology

S Dome for Flat Roofs:

- 10° single sided with flexible inter-row spacing
- Wind tunnel tested resulting in low ballast & flexible load sharing (SEAC PV1 & PV2 Compliant)
- UL 2703 Listed for bonding and fire
- Roof Protection Mat and Spacer Pads to interface with common roof types and manage roof undulations
- Low material cost / easy installation

Dome S1000

Width: 3.54 inch (90 mm)
Material: aluminum

Dome SD

Width: 3.54 inch (90 mm)
Material: aluminum

Windbreaker Dome S1000

Length: 66.93 inch (1700 mm)
Material: aluminum

XPressRail 22

Material: aluminum

Bonding Mid Clamp Set

Material: stainless steel
Hardware: stainless steel

Bonding End Clamp Sets

Material: stainless steel or aluminum
Hardware: stainless steel

S Dome Windbreaker Hardware

Material: stainless steel

EZ Universal Hardware Set

Material: stainless steel

IlSCO Lug SGB-4

Material: tin plated aluminum
Hardware: stainless steel

Building Protection Mat II

Building Protection Mat SD

Building Protection Mat Spacer Pad

Material: recycled tire rubber

XPressRail Connector Set

Material: aluminum

Optional: Porter for ballasting

Material: aluminum

Optional: Eco Fasten Eco65

Material: stainless steel

Optional: OMG PowerGrip Plus

Allows welding to the roof membrane
