

Ground Rail Set, 122", Clear

Ground Rail End Cap

SnapNRack Series 200 Ground Mount

The **SnapNRack 200 Ground Mount system** is a solar module installation system that is low profile and visually appealing. This innovative suite of racking products simplifies installation to save time and money. The SnapNRack ground rail and rail-to-pipe clamp creates a multi-pole, fixed-tilt ground mount. The ground rail accepts all Series 100 module mounting clamps and the pipe clamp is designed for 1.5" (1.9" outside diameter) schedule 40 or 80 steel pipe substructures. It can be installed with tilt angles up to 45° and in locations that may see wind speeds up to 170 mph and snow loads up to 120 psf. For module attachment hardware refer to the SnapNRack Module Attachments section.
