

ITEM	PART #
Premium Solar Mesh Kit - 8" - Metal Clips	SOLAR KIT-P-M-8
Premium Solar Mesh Kit - 6" - Metal Clips	SOLAR KIT-P-M-6
Premium Solar Mesh Kit - 4" - Metal Clips	SOLAR KIT-P-M-4
Premium Solar Mesh Kit - 8" - Nylon Clip	SOLAR KIT-P-P-8
Premium Solar Mesh Kit - 6" - Nylon Clip	SOLAR KIT-P-P-6
Premium Solar Mesh Kit - 4" - Nylon Clip	SOLAR KIT-P-P-4
Premium Solar Mesh 8" (100')	SOLAR MESH-P-8
Premium Solar Mesh 6" (100')	SOLAR MESH-P-6
Premium Solar Mesh 4" (100')	SOLAR MESH-P-4
Metal Clips (100pk)	SOLAR CLIP-M
Nylon Clips (100pk)	SOLAR CLIP

Mesh

- 1.05mm Galvanized Steel Wire
- Black PVC coating to 1.55mm
- Length: 100 ft.
- Width: Available in 4", 6" & 8"
- Grid: 1/2" squares

Nylon Fastening Clip

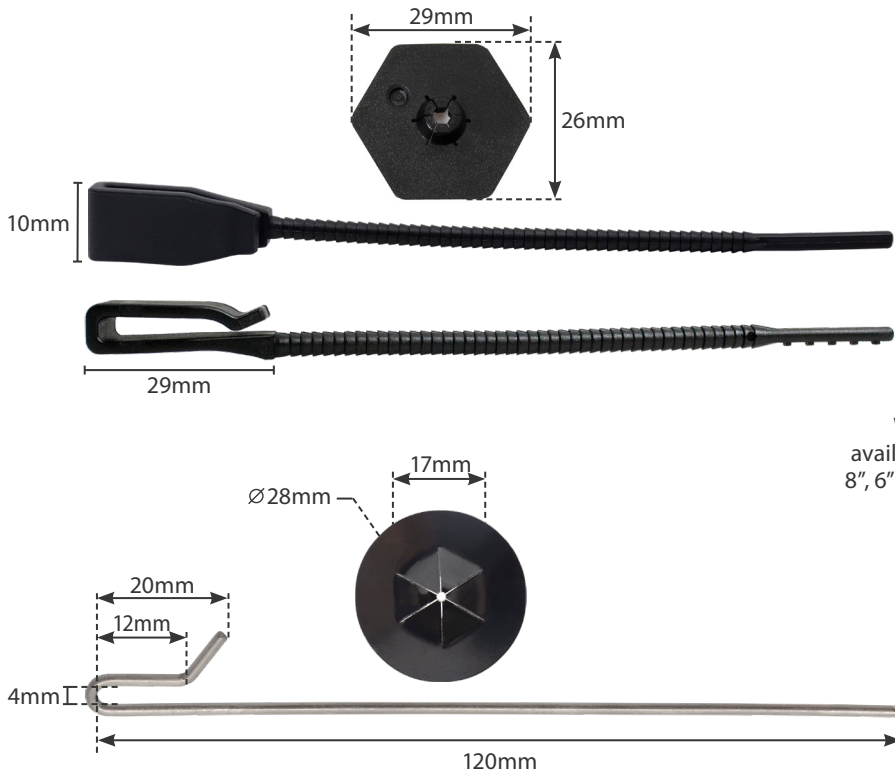

- Material: UV protected nylon
- Length: 123 mm
- Clip depth: 29 mm
- Width: 10 mm
- Count: 100 pieces

Metal Fastening Clip

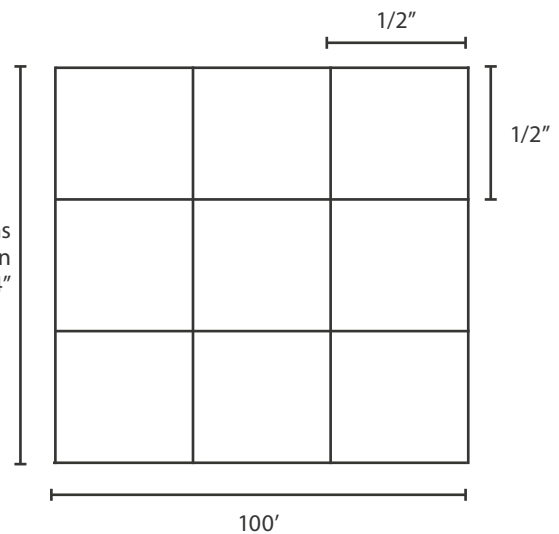

- Material: Stainless steel
- Length: 120 mm
- Clip depth: 20 mm
- Material thickness: 1.8mm
- Count: 100 pieces

Solar Kit

- 100' of mesh
- 100 clips

Widths available in 8", 6" and 4"

Why Solar Mesh?

Homeowner Benefits

1. Protect panels from birds - Birds will nest underneath panels, especially pigeons, and cause severe damage from nesting materials and droppings.
 - Bird droppings are a health hazard, especially when built up over time. Furthermore, droppings will reduce efficiency of panels and require increased panel cleaning costs.
 - The buildup of nesting debris can become a potential fire hazard when hot, and cause roof rot when moisture is trapped after rain.
 - Solar panels provide a perfect nesting location that protects birds from predators, holds nests in place, provides shade in warm weather, and warmth in cold weather.
 - After nesting, it is difficult and very expensive to remove birds and clean the area.
2. Protect panels from small rodents like squirrels and rats.
 - These critters can cause serious damage by chewing through wires, leading to expensive repairs and power loss.
3. Solar Mesh will keep the wires under the panels free from pests and ensure leaves, vegetation, and other debris doesn't get stuck and cause damage.

Key Takeaways

1. Solar Mesh keeps your solar panels safe from nesting birds, squirrels, and other rodents that could chew through your wires.
2. Vegetation like dry leaves or twigs that are swept under your panels can cause damage and become a fire risk - Solar Mesh helps mitigate this possibility.
3. Solar Mesh help you keep your solar panels protected so that they last longer and require less maintenance.
4. Install Solar Mesh proactively for a small expense to avoid large expenses down the road.

Installer Benefits

- ✓ Additional Revenue Stream
- ✓ Protects customer's system and roof
- ✓ Quick and simple install
