Energy Storage Solutions

ENERGY STORAGE SIMPLIFIED

EnergyTrak™ Control System

Simplest and most accessible ESS interface.

EnergyTrak™ provides advanced system monitoring through a streamlined mobile app that delivers real-time status and updates with intuitive control over the entire SimpliPHI® Energy Storage System (ESS). EnergyTrak provides peace-of-mind that your SimpliPHI ESS is providing the critical energy solution you need it to, whether that is reducing higher-rate time-of-use (TOU) charges or providing critical backup power. This smart control system makes installation and setup of the SimpliPHI ESS fast and secure. With easy-to-understand prompts and notifications, advanced cybersecurity, as well as remote system access — **EnergyTrak is the simplest, most accessible interface for energy storage systems.**

Why EnergyTrak?

- › Robust cybersecurity
- › Fast ESS commissioning
- › System notifications
- › Domestic data warehousing

SIMPLI PHI™

Energy Storage Solutions

Streamlined ESS Commissioning

Simple 5-step commissioning process from a smartphone means less time spent on-site.

Business-level User Account Management

Quickly give your team the tools they need while protecting your customers' information.

Management of Customer Installations

Monitor your entire fleet of installs, helping you to address issues quickly and maximize ESS uptime.

Advanced Cybersecurity

Constant penetration testing for vulnerabilities to ensure the security of your system and information is kept safe.

System Monitoring & Notifications

Get the details and notifications you need for each customer's site.

Customer Account Creation

Make it easy for your customers to connect with their system ... and with you.

Remote Configuration of Commissioned Systems

Reconfigure connected systems without making a site visit.

**For the
System
Owner**

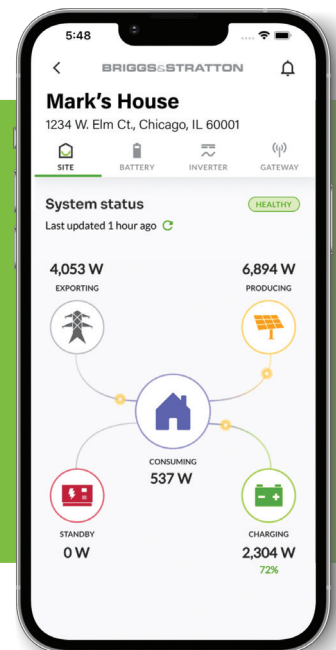

Site-level System Monitoring

Easily view and receive notifications about your system's operation with real-time information about battery, solar and/or grid power availability.

Connectivity and Updates

Simple Wi-Fi setup or reliable hard-wired networking along with automatic over-the-air firmware updates, ensures your system remains safe, secure, and as code-compliant as possible.

Expertise and Quality You Can Trust.

With 115+ years of experience providing power solutions, Briggs & Stratton is a brand homeowners trust. Our products are designed and engineered in the USA, and our customers can rely on us for exceptional performance and durability.

Our commitment to delivering the most powerful and reliable energy storage solutions in the industry ensures that you have the peace of mind you deserve when it comes to safeguarding your home's power supply. Say hello to a new era of energy storage and **keep powering forward™**.
