

SOLAR METER SOCKET ADAPTER

The ConnectDER™ Solar Meter Socket Adapter (MSA) is designed to rapidly connect grid-ready solar PV assets to the home. The adapter is UL-listed, NEC compliant, and a low-cost alternative to traditional installation methods.

SIMPLE PLUG & PLAY

INTERCONNECTION FOR RESIDENTIAL SOLAR PV

- Eliminates main panel upgrades (MPU), reduces costs, and standardizes safe, efficient installations
- Tool-free junction box removal provides easier access to meter socket for inspection and allows for safe removal by emergency personnel
- Reversible junction box with conduit entry from either side of the MSA
- Ability to interconnect Solar PV without entering the premises or accessing the main panel
- Compatible with most residential meter sockets, including lever and horn bypass
- Integrated overcurrent protection device for Solar PV (60A maximum)
- Suitable for use as service equipment

“ConnectDER’s Solar Meter Socket Adapter is one of these potential “game-changers” that has really caught my attention...the main distribution panels in the home are notoriously small, outdated, maxed out, recessed into the wall, not listed for a supply-side interconnection or a combination of the above - making interconnection costly and complex. Utilizing the ConnectDER adapter however can greatly simplify the process - bypassing the existing distribution panel altogether and tying directly in at the meter in both a code-compliant and utility-sanctioned manner.”
