

Solar Panel Hanger

Mounting Position

Staging Position

Features

Mounting Position

- 1 Holds the solar panel in place while an installer is wiring, straightening, and securing the solar panel to the rail. With this tool, only one installer is required.

Staging Position

- 2 Creates a place for installers to stage their solar panels on the solar racking in a single stack.

Universal Foot

- 3 Adjustable to fit any type of solar racking. The thumb screw on the back of the foot secures the tool to the racking when in the staging position.

Micro Adjustment Knob

- 4 Allow installer to make micro adjustments to the solar panel to ensure it is perfectly straight

Push Lock System

- 5 The push lock system allows for a simple transition from the mounting position to the staging position without any special tools.

SPECIFICATIONS

- Universal Jaw: Rack Width Range: 0.75" - 1.625" with 0.040" increments
- Shaft adjustment allow solar panel cantilever to be adjusted for portrait or landscape from 10" to 15" overhang

- Field tested with Iron Ridge XLR 10/100/1,000, Quick Mount PV (standard/light), SnapNrack, and Sunmodo

*Not recommended for use above a 12/12 pitch roof

Steep Roof / One Installer

SOLAR PANEL HANGER

FASTER, SAFER, EASIER

Created out of the frustrating daily grind of installing solar panels.

The Solar Panel Hanger is designed to assist with the staging, wiring and mounting of solar panels and is especially helpful when working on steep roofs.

Speeds up Installation

Allows one installer to install solar panels much easier. With two or more installers, one can stage the panels while the other wires and mounts them.

Safer Installation

Stages solar panels in one place increasing walking area and reducing trip hazards.

Reduces Body Strain

Holding solar panels in place while wiring them and mounting them on a pitched roof is strenuous. The solar panel hanger reduces that strain by doing the bulk of the work for you.

Stages Solar Panels

We know first hand the struggles you as a solar installer face.

We see you, we hear you and we are one of you!
